

FRAMING NATURE

WHO NEEDS ART
MASTERPIECES WHEN A
GULF COAST WATER VIEW
SERVES AS BACKDROP?

Naples interior designer **DIANA HALL** clearly understands how to use a stunning water view to her advantage. **RIGHT:** For this Bonita Springs dining room, Hall selected chair upholstery in a tone that would complement the variations of blue provided by the water and sky views. While the palette anchors the eyes at mid-level, the Crystorama chandelier, which slightly mimics the shape of a boat, draws them up to the ceiling. **BELOW:** The waters of Estero Bay and the Gulf of Mexico prompted Hall to impart a clean and contemporary style in this Bonita Springs dining room, which houses furniture by Vanguard and an Avenue Lighting chandelier.
